ID :	Task Name	2025-10		2025-11		2025-12				2026-0	2026-01				2026-02				2026-03					
ю.	rask Name	20	26	02	09	16	23	30	07	14	21	28	04	11	18	25	01	08	15	22	01	08	15	22
1	▼ Creating Map System																							
2	Cell system																							
3	Chunk System																							
4	Map Manager																							
14	Refactoring Code system																							
5	▼ Creating UI																							
6	Create Method to view map																							
7	Create a interactive system for interactions																							
15	Refactoring Code System																							
8	▼ Build Life System																							
10	building subsystems for Conway's																							
9	Conway's Life algorithm																							
21	▼ Building ecosystem system																							
22	Creating Red Cells																							
23	Creating Blue Cells																							
24	Creating Green Cells																							
11	▼ Export / Import System																							
12	Import system																							
13	Export system																							
26	▼ Search algorithm																							
27	Creating method to find different pattens wit																							
28	Implemting system to add into map																							
16	▼ Build Tests																							
17	Testing Map system																							
18	Testing UI System																							
19	Testing Life																							
20	Testing import and export system																							
29	Optimise program
